

CANADIAN CONFERENCE
ON BUILDING SCIENCE &
TECHNOLOGY

CONFÉRENCE CANADIENNE SUR
LA SCIENCE & LA TECHNOLOGIE
DU BÂTIMENT

Integrating Sustainability

May 6, 7 and 8, 2009

Montréal, Québec, Canada

Intégrons le développement durable

Les 6, 7 et 8 mai 2009

Montréal, Québec, Canada

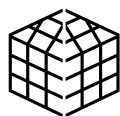

VOLUME **2** Montréal 2009

Presented by / Présentée par

National Building Envelope Council
Conseil National de l'Enveloppe du Bâtiment

Organized by / Organisée par

CEBQ

QBEC

Conseil de l'enveloppe du bâtiment du Québec

Quebec Building Envelope Council

TABLE OF CONTENTS / *TABLE DES MATIÈRES*

Preface / <i>Préface</i>	I
Acknowledgements / <i>Remerciements</i>	V
Welcome address / <i>Mot de bienvenue</i>	VII
Scientific committee / <i>Comité scientifique</i>	IX
List of reviewers / <i>Liste des reviseurs</i>	X
Organizing committee / <i>Comité organisateur</i>	XI
Green event / <i>Événement vert</i>	XII
Keynote / <i>Discours d'ouverture</i>	XV
Hommage Armand Patenaude Award / <i>Prix Hommage Armand Patenaude</i>	XVII
Sponsors / <i>Commanditaires</i>	XIX
Conference partners / <i>Partenaires de la conférence</i>	XX

Volume 1

TRACK 1 / *PISTE 1*

Session 1.1 **Wind, rain and cavities / *Vent, pluie et cavités* – William C. Brown, chair / *président***

Overview of Research on Rainwater Runoff from Building Façades Bert Blocken, Dominique Derome, Jan Carmeliet	1
Ventilation and Evaporation Rates in Wall Cavities in New Zealand Mark Bassett, Stephen McNeil, Greg Overton.....	13
Field Investigation of the Impact of Cavity Ventilation on the Wetting and Drying of Brick Veneer Wall Systems in the Coastal Climate of British Columbia Hua Ge, Ying Ye, Paul Fazio	25
Field Measurements of Wind-Driven Rain: A Study of Seven Buildings in Metro Vancouver Hua Ge, Ronald Krpan, Paul Fazio	37

Session 1.2 **Rain penetration / *Pénétration de la pluie* – Madeleine Z. Rousseau, chair / *présidente***

Building Envelope Failure Analysis Due to Precipitation Ingress in Northern Climate Derek van Nes, John Wells.....	49
Water Penetration of Cladding Components - An Overview of the Vulnerability of Sealed Joints to Water Penetration Michael A. Lacasse, Hiroyuki Miyauchi.....	61
A Study of Drainage and Retention of Water by EIFS Materials and Systems Donald M. Onysko, John Edgar, Elie Alkhoury, Fadi Nabhan	73
Solar Driven Moisture Transport – Myth or Reality? Achilles Karagiozis, Dominique Derome, Jan Carmeliet.....	85

Session 1.3 Retrofit and renovation of envelope assemblies / <i>Réhabilitation et rénovation de l'enveloppe</i> – William Rose, chair / président	
Measuring the Impact of Interior Insulation on Solid Masonry Walls in a Cold Climate J. Wilkinson, D. De Rose, J.F. Straube, B. Sullivan	97
Rehabilitation of Building Envelope with Large “Intra Mural” Cavities: Theory, Diagnostic and Implementation Richard Trempe, Guylaine Desmarais.....	111
The Window Wise Way: Air and Water Leakage Resistance of Installed Replacement Windows George R. Torok.....	123

TRACK 2 / PISTE 2

Session 2.1 Energy and economics / <i>Énergie et économie</i> – Radu Zmeureanu, chair / président	
Energy Consumption in Mid and High Rise Residential Buildings in British Columbia Graham Finch, Eric Burnett, Warren Knowles	137
An Economic Evaluation of Building Envelope Energy Retrofits Afarin Maleki, Kevin Day, Kim D. Pressnail.....	151
Energy Audits and Retrofits in Schools - Case Study Subhi Alsayed, Jeremy Carkner	163
Optimum Value Engineering and Integrated Design Methods for Reducing the Cost of R-2000 Houses Gary Proskiw, Anil Parekh.....	175
Session 2.2 Energy issues and sustainability / <i>Énergie et développement durable</i> – John Straube, chair / président	
A Study of Thermal Insulation Practices in the Arctic Regions of Canada George L. Illaszewicz, Kim D. Pressnail, Russell Richman	187
Field Performance of Exterior Solar Shadings for Residential Windows: Summer results A. Laouadi, A.D. Galasiu, M.C. Swinton, M.M. Armstrong and F. Szadkowski.....	197
Evaluating the Performance of a Double Façade in a Cold Climate: A Case Study J. Duncan Rowe, Kim D. Pressnail, Russell Richman	211
A Practical Design Tool to Predict Surface Temperature in Solar Heating: Theory, Practice and Case Studies Alex McGowan.....	223

Session 2.3 Envelope/indoor environment interactions / <i>Interactions enveloppe et intérieur</i> – Boualem Ouazia, chair / président	
Review of Moisture Balance Models for Residential Indoor Humidity Samuel V. Glass, Anton TenWolde.....	231
Stochastic design method to determine the moisture buffering of walls Jan Carmeliet, Dominique Derome	247
Comparative Hygrothermal Performance Testing of wall assemblies with brick veneer employing a 3-dimensional dual ventilated WRB and a spunbonded polyolefin-based WRB Markus Jablonka, Achilles Karagiozis	259

TRACK 3 / PISTE 3

Session 3.1 Long-term performance - Monitoring the building envelope / <i>Rendement à long terme - Monitoring de l'enveloppe</i> – Leslie Peers, chair / président	
A Field monitoring study of Interstitial Condensation in Wood-Frame Walls in Cold Climate M.M. Armstrong, W. Maref, M. Rousseau, W. Lei and M. Nicholls	271
Automated Moisture Monitoring Systems to Manage the Structural and IAQ Performance of Buildings David Vokey, Michael Glassco	283
On Stucco Cracking Pierre Michel Busque	293
Adhered Veneers and Inward Vapor Drives: Significance, Problems, and Solutions John Straube, Chris Schumacher, Jonathan Smegal, Marcus Jablonka.....	303
Session 3.2 Materials vs moisture management / <i>Matériaux versus gestion de l'humidité</i> – Manfred Kehrer (for Andreas Holm), chair / président	
Weathertight Characteristics of Weatherboard Claddings Mark Bassett, Steve McNeil	313
The Effects of Board Density, Resin Content and Component Layers on the Permeability Properties of Mill-Fabricated Oriented Strandboard P.C. Timusk, K. D. Pressnail, P.A. Cooper	325
Use of Simulation Tool to Assess Hygrothermal Response of Wood Frame Building Envelopes in Taiwan Phalguni Mukhopadhyaya, Ramez El Khanagry, David van Reenen, Curt Copeland, Kumar Kumaran, Paul J. Newman, and Ehab Zalok	335
Hygrothermal Performance of RH-Dependant Vapour Retarder in a Canadian Coastal Climate Fitsum Tariku, Wahid Maref, B. Di Lenardo, Stan Gatland	347

Session 3.3 Materials - novel aspects / Matériaux - nouveaux aspects – Phalguni Mukhopadhyaya, chair / président

Osmosis and the Blistering of Polyurethane Waterproofing Membranes Graham Finch, Brian Hubbs, Robert Bombino	359
The Challenges of Using Shotcrete for Above-Grade Walls of an Exposed Concrete High-Rise Building Catherine Lemieux, Sophie Mercier	375
High Vapor Permeability Peel and Stick Membranes Lara Proctor, Andrew Russell	387

Volume 2

TRACK 4 / PISTE 4

Session 4.1 Wall assemblies performance / Rendement d'assemblages de murs – Wahid Maref, chair / président

An Innovative Approach to Low-Energy Building Performance Using Nested Thermal Envelopes K.D. Pressnail, Russell Richman, A.M. Kirsh	393
Installing Thermal Insulation on the Interior of a Glazed Aluminum Wall System in a Heating Climate Andy Lang	405
Performance Evaluation of Non-Traditional Exterior Wall Systems Sophie Mercier	417
Studying the thermal conditions within the insulation cavity of wood-frame walls S. Saneinejad, D. Derome	429

Session 4.2 Attics and roofs / Greniers et toits – Achilles Karagiozis, chair / président

Roofs as Extended Surface Solar Collectors: Practical Issues and Design Methodology William O'Brien, Andreas Athienitis, Ted Kesik	437
Dual Barrier Roof Assemblies W. Allen Lyte	449
Thermal Investigations of a Metal Roof with Inter-rafter Insulation of Mineral Wool and Wood Fibre Boards Jan Peter Hinrich, Andreas Holm, Achilles Karagiozis	461
The Need for Vapor Barriers in Above-Grade Walls with Spray Polyurethane Foam Cavity Insulation John Straube, Rachel Smith	473

Session 4.3 Durability of the building envelope / <i>Durabilité de l'enveloppe</i> – Jan Carmeliet, chair / <i>président</i>	
Designing Envelopes for Cold Climates Using a Limit States Design Approach and Life Cycle Cost Analysis Ted Kesik, Svetlana Melnichuk, Kim Pressnail, David De Rose.....	483
Building Failure in New Zealand, A tipping point in the performance of absorbent claddings fixed directly to timber framing Steve Alexander.....	495
A review of building rehabilitation in New Zealand – Leaking buildings or wider building code performance issues? Mark Powell.....	509
Sustainable Building Design at Vancouver’s 2010 Olympic Village, Millenium Water Albert Bicol, David Fookes, Roger Bayley.....	521

TRACK 5 / PISTE 5

Session 5.1 Air – Dominique Derome, chair / *présidente*

Air-Leakage within Multi-unit Residential Buildings - Testing and Implications for Building Performance Graham Finch, John Straube, Colin Genge.....	529
Design principles for pressure moderated window frames Nathan Van Den Bossche, Arnold Janssens, Jan Moens.....	545
Hygrothermal performance of well-insulated timber floors above exterior ventilated crawlspaces in Austria Christoph Buxbaum, Oskar Pankratz, Wolfgang Gallent.....	557
Air Leakage vs. Air Intrusion in Low-Sloped Roofing Assemblies Suda Molleti, Bas A. Baskaran, Steven Ko, Pascal Beaulieu.....	567

Session 5.2 HVAC and the envelope / *CVAC et enveloppe* – Marianne Bérubé-Dufour (for Andreas Athienitis), chair / *présidente*

A Desiccant Evaporative Cooling System for Residential Buildings Boualem Ouazia, Hayssam Barhoun, Kamel Haddad, Marianne Armstrong, Roger Marchand and Frank Szadkowski.....	579
More Sustainable Masonry Façades: Analytical Modeling of a Dynamic Buffer Zone (DBZ) Brick Veneer Wall Assembly Russell Richman, Kim D. Pressnail, Christian Cianfrone.....	591
Low Energy Homes: The Economic Case for Building More Responsibly Now A.M. Kirsh, K.D.Pressnail, Richman, R.C.	603
Fighting Climate Change with the Building Envelope: A Parametric Analysis of the Effects of Envelope Improvements Mark Lucuik, Stephen Pope, Doug Sharpe, Genevieve Renaud.....	615

**Session 5.3 Design projects and design tools / *Projets et outils de conception* –
Guylaine Desmarais, chair / *présidente***

The Art Gallery of Alberta - The Challenges of the Building Envelope Design Nick Trovato.....	627
A socio-technical approach to improve integrated design performance Daniel Forgues.....	639
Construction Waste Minimization: A Design Assessment Based Tool Maxime Tétrault, Daniel Forgues, Hugues Rivard.....	651
Developing affordable and sustainable multifamily social housing in Montréal's Rosemont-La-Petite-Patrie borough France Suerich-Gulick, Frédéric Genest, Yann Omer-Kassin, Daniel Pearl, Anne-Marie Pelletier	663

Sponsors / Commanditaires

The 12th Canadian Conference
on Building Science and Technology
is made possible by the generous support of our sponsors.

*La 12ième Conférence canadienne
sur la science et la technologie du bâtiment
remercie ses commanditaires pour leur générosité.*
